Digital Archivist, Specializing in Vintage Photo Collections, Ephemera and Heirloom items

## Digitizing Photos, Slides and Documents for Family History Preservation

Preparing family tree pendants from digitized vintage photos.

My Beautiful Life Story is a digital archivist & personal historian consultant, serving the **Bradenton**, **Sarasota** and **Venice** communities of Florida.

A personal historian who is a **digital archivist** preserves photos (slides and negatives, memorabilia and ephemera) and provides advice about storage and uses for photo and memorabilia collections.

As an archivist, I **travel worldwide** helping families preserve their photo collections and tell their unique stories. My home office is near Bradenton Florida and I serve Sarasota Florida and Venice Florida generally. If your project is further afield, I am happy to discuss your needs.

We can meet virtually or face-to-face to discuss what are your goals for your photo collection.

During the process, your photos, media, storage containers are gone through and the photos, slides and film are collected together. We discuss your budget and what your goal is for preserving your photo collection.

If preserving your family history stories and organizing your photos has been on your to-do list, there is no time like now to make it happen.

**Don't wait to preserve your legacy!**

## **Family History Savers NOTE**

PS: Family history savers love My Beautiful Life Story. They wax poetic with their [testimonial's, like this one from Homer Speer](#) who was the keeper of his family history.
